Specialising in realistic Strategy, guiding People
& maximising Influence

Accredited DTF Investment Management Facilitator with national experience. Ernest is also **Accredited Mental Health First Aider Australia** & **Accredited Skills Framework for the Information Age** consultant & Trusted advisor & Strategic sound board to many.

Organisation Overview S.I.P.

S.I.P. independent Management Consultants have been operating in the government and corporate environment for 15+ years and have undertaken projects across a broad range of activities to maximise client outcomes.

Over this period the company has delivered investment management facilitation and guidance services, business strategy and analysis and independent advisory services in the fields of investment logic for infrastructure, technology & innovation, capability & capacity, & practical strategy to execution management. Driving value for government, non-government & commercial organisations is inherent in our approach to all our services. We take our responsibility seriously.

Facilitator Profile

Ernest Stabek has facilitated workshops across the full workshop suite within the Investment Management Standard - Problem definition, Benefits Definition, Strategic Response, Solution definition, Program & Organisational Logic workshops, & more complex facilitations.

A decade of experience & accumulated wisdom & understands when investments require expert inputs & tact in delivery to ensure value is maximised.

“Ernest brings a depth of real, honest and thoughtful experience across the full gamut of investment types from small and large infrastructure and asset investments to complex and challenging policy development and service innovation and improvement initiatives and programs.”

At the heart of each of these 2.0 hour independently facilitated workshops is a commitment to intelligent, realistic discussions with a focus on strategic, evidence-based decisions about investments. Ernest coaches his audience as part of the facilitation process to maximise the outputs. As a former CFO he understands the underpinning logic from a practical and evidence-based perspective.

“Participants feel encouraged to share and learn to be more active listeners, be mindful in accepting of other views and perspectives and leave energised and conscious of the emerging investment logic”

Clients include Victorian government departments, numerous agencies and State Authorities, ACT government departments, Community organisations (Not for Profits support available), local Technology Start Up’s, Small to Medium businesses and major commercial organisations seeking to challenge or expand their vision and interpretation of investment logic.

About Investment Management

The investment management standard (IMS) is a process for applying simple, common-sense ideas and practices that help organisations to direct their resources and achieve the best outcomes from their investments.

For more information on how IMS can be used to aid your organisation go to <https://www.dtf.vic.gov.au/infrastructure-investment/investment-management-standard>.

It is grounded on three principles:

- *The best way to pool knowledge is through an informed discussion that brings together those people with the most knowledge of a subject;*
- *The ‘investment story’ is best depicted on a single page using language and concepts that can be understood by a lay person; and*
- *Each investment should have clearly defined benefits that align with the outcomes the organisation is seeking.*

Clarity of Costs

All IMS independently facilitated workshops are priced at **\$1,760.00 inclusive of GST**. Volume discounts are available on request.
